## Energy Efficiency Rating

|                                                                                                                                                                                                                                                                       | Current                    | Potential                                                                             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|---------------------------------------------------------------------------------------|
| <i>Very energy efficient - lower running costs</i><br><div> <div>(92+) A</div> <div>(81-91) B</div> <div>(69-80) C</div> <div>(55-68) D</div> <div>(39-54) E</div> <div>(21-38) F</div> <div>(1-20) G</div> </div> <i>Not energy efficient - higher running costs</i> | <div>70</div>              |                                                                                       |
| <b>England &amp; Wales</b>                                                                                                                                                                                                                                            | EU Directive<br>2002/91/EC |  |

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

|                        |                                                                                         |
